K−means Clusters (k=3) on density−residualized tau_r1 + tau_skew

Color: blue = least stressed −> red = most stressed (consistent with heatmaps)

White gaps: pixels burned (MTBS moderate+ severity) at any point 2000−2014, excluded before clustering

White gaps: pixels burned (MTBS moderate+ severity) at any point 2000−2014, excluded before clustering
